# DEMAND SMALL PRICES SLIP BACK

Needs of Shorts Satisfied and Market Becomes Dull and Sagging.

#### PERIOD OF QUIET EXPECTED

Approach of Season of Uncertainty for Crops of Country.

(By Associated Press.)

NEW YORK, May 6.—To-day's dull and sagging stock market was in accordance with general expectation and was corrobogative of the view that yesterday's buying largely represented profit-taking by the shorts. With this demand from the short interest satisfield, prices slipped back to-day more from the exhaustion of the demand than from any renewal

of active pressure to sell.

The supposition is general that a period of quiet speculation is before the market in the absence of important new developments, with the possibility of some further speculative liguidation yet to be concluded. So many illusions have been dissipated and corresponding losses and disappointments suffered by those who accepted unwarranted rumors in good faith that an early renewal of specula-tive confidence is not counted upon. What adds to this probability is the approach of the season of uncertainty and vicissitudes for the country's crops and the

of the season of uncertainty and vicissitudes for the country's crops and the
normal unsettling effect of this period
upon business in general. Union Pacific
and St. Paul continued their leadership
of the market to-day on the reaction as
on the recovery.

There was some temporary show of
strength in other quarters, but it was
not sugtained. Unofficial reports, which
were denied, that Lake Shore had acquired some blocks of Erie, gave a firm
tone to those stocks. Yesterday's Jump
in People's Gas was found this morning
to have been due to a false report as to
the proposed gas legislation and that
stock dropped back. The advance in
Northern Pacific was detrimental to the
market rather than helpful.

The hank statement conformed so closety to the forecast that its publication
called for no readjustment of market
accounts.

The market closed wesk and dull.

The total sales of bonds, par value,
amounted to \$1,025,000. The total sales
stocks were \$16,000 shares.

# Danville Tobacco Market.

Reported for The Times-Dispatch by Dibrell Brothers.)

Danville, Va., May 8, 1905.

The waether this week has been seasonable, and in consequence receipts have been larger than they were the week previous. The farmers, however, are quite busy still with farm work, and therefore have not been able to market their tobacces as freely as they would have done otherwise. Prices on tobacce that has been rehandled continus very firm for all grades. Tobacce that shows handling and shippers' stock continues dull. The orders in the hands of the brokers seem to amount to a good deal, and they are quite active on the ioses sales as well as buying the round lots. Considerable tobacco in round lots is changing hands, and the remnants of the old 192 crop are being very rapidly taken up. The farmere report plenty of plants in the old belt section, and that they are in good condition. We are still of the opinion that there is little or no probability that the crop will be increased in the old belt section.
